SUMMARY

Frontend-focused Software Engineer with experience in React.js, RESTful APIs, and building responsive interfaces using HTML, CSS, and JavaScript. Passionate about building intuitive and user-friendly experiences.

EDUCATION

Manipal Institute of Technology

B.Tech. in Computer Science and Engineering (Cyber Security) | CGPA: 8.27

Manipal, India

2022 – 2026

TECHNICAL SKILLS

Frontend : React.js, JavaScript, HTML, CSS

Programming Languages : Java, Python, C/C++

Backend & APIs : Node.js, Spring Boot, RESTful APIs, JSON

Database & Tools : MongoDB, SQL, Git, Postman, Linux

EXPERIENCE

Intern | IIT Madras Pravartak

March 2025 – June 2025

- Contributed to application workflows by preparing and structuring data for smoother processing, handling **data for 3+ key modules**.
- Utilized Git for version control and collaborative code management, coordinating with **4 team members** across multiple commits.

Frontend Developer | IBM SkillsBuild

June 2024 – July 2024

- Developed and optimized web pages using **HTML, CSS, and JavaScript**, enhancing **UI consistency** and improving **user experience** across multiple pages.

PROJECTS

D2C Product Management Web Application | React.js, Node.js, MongoDB

March 2026

- Created a component-based frontend using modern JavaScript within React, with 10+ reusable components, improving UI rendering efficiency.
- Integrated backend APIs to support real-time product CRUD operations.
- Developed UI using HTML5 and CSS3, ensuring consistency across different screen sizes.

Shipping Cost Calculation Microservice | Java, Spring Boot

February 2026

- Developed a Spring Boot-based microservice exposing **5+ RESTful APIs** for shipping cost calculation and order processing.
- Implemented business logic for **route-based pricing using distance calculation** and warehouse selection, handling **10+ pricing scenarios**.
- Used Spring Data JPA to manage multiple entities and handled 8+ edge cases to ensure **reliable API responses for frontend integration**.

Web Penetration Testing Tool (CLI-Based) | Kali Linux

July 2025

- Built a modular CLI-based vulnerability scanner with 6+ modules targeting SQL Injection, XSS, and API vulnerabilities.
- Implemented asynchronous TCP/UDP socket-based scanning to enable concurrent execution, increasing scanning efficiency by 40%.
- Generated structured **HTML reports** summarizing and categorizing detected 10+ vulnerabilities for easier analysis.

POSITION OF RESPONSIBILITY

Core Committee Member | Drama Club

Aug 2023 – July 2024

- Led a team of **50+ members** in the Drama Club, organizing and executing **10+ events** for **200+ participants**.
- Streamlined coordination and task management processes, improving efficiency across 50+ team members and ensuring smooth execution of all events.**
